

Dear Sir

## **AGREEMENT FOR NOMINATION/ELECTION INTO AFROPHC EXECUTIVE**

Kindly consider my agreement to join the AfroPHC executive as advertised. I have the following academic qualifications; PhD Global Health Governance and Community Health; Master's in Public Health (MPH), Post Graduate Diploma in Public Health (PGDPH), Post Graduate Diploma in Public Admin (PGDPA, Graduate Diploma in Accident & Emergency Nursing (A&E), BSC (Hons) Nursing Science, Registered Nurse (RN) and Community Health Extension Worker (CHEW) in addition to several conventional on-line and off-line self-development courses and trainings.

My trainings and years of continue professional experience enables me grasped the full impact of project assessment, from the baseline assessment to the end; as a research consultant and facilitator I understand the sequence of development partners research protocols and approach. Also, as further examples of my experiences, in the areas of health, education, nutrition, and research activities, I lead the education of the community we serve on the relationship between environmental management and diseases prevention and control techniques, and nutritional support. I am currently a lecturer in the community medicine department of Federal University Dutse, Jigawa state, Nigeria and also the Chairman/Director Health & Human Services, Abubuwa Societal Development Initiatives. I also served both state and federal government institutes at different capacities evolving around health services. Therefore, my experience with government (Federal and State), non-governmental sector and private organization, history of publications, involvement in academic and community services across Africa, Asia and Pacific.

I developed interest in health system research in the lens of Sustainable Development Goals Number 3 (SDG 3): focus on transdisciplinary collaboration (TDC). My interest in this domain was based on personal experience and knowledge developed over a course of time. I have in this regard published several peer review articles, in reputable journals and also engaged diverse stakeholders through research, conferences, seminars and workshops; on the topic (see my CV). Succinctly, I thrived well under pressure in the line of duty, applying available problem solving skills, depending on the situation demand.

Thank you for considering my application. I hope to hear from you soon.

**Dr. Umar Ibrahim**
